

EDITORIAL

As of the beginning of 2008, the SECOT Board has decided to increase its efforts to ensure that our *Revista* reflects the true purpose with which it was founded, namely facilitating scientific expression, of Spanish speaking orthopedic surgeons. With this goal in mind, without prejudice to other changes that we may introduce in the coming future, we have changed the name of our publication, which shall henceforth be called *Revista Española de Cirugía Ortopédica y Traumatología*, instead of *Revista de Ortopedia y Traumatología*. It is our wish that this change may show our international readership the true territorial scope of our publication and that this makes it possible for us to attain the highest scientific standards in our own language.
