Declaration of Conflict of Interest

Journal: ENFERMEDADES INFECCIOSAS Y MICROBIOLOGÍA CLÍNICA Supplement: “Vaccines: present and future” Volume 26, Supplement 1, January 2008

Introduction

Magda Campins Martí

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):1–2

Conflict of interest: the author has participated as the main investigator in clinical trials financed by GSK and Sanofi-Pasteur MSD, has presented at symposiums organized by GSK, Esteve, Sanofi-Pasteur MSD and Wyeth-Lederle, and has acted as a scientific advisor for Laboratorios Esteve.

Rotavirus vaccines

Javier Arístegui

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):3–11

Conflict of interest: the author has participated as the main investigator in phase III clinical trials and research projects performed with GSK, Wyeth-Lederle and Pasteur MSD and has presented at meetings sponsored by GSK, Wyeth-Lederle and Esteve.

Whooping cough vaccination in adolescents and adults

Magda Campins Martí and Fernando A. Moraga Llop

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):12–9

Conflict of interest: Magda Campins Martí has participated as the main investigator in a clinical trial with the DTaP vaccine, financed by GSK, and has been an invited speaker at symposiums organized by GSK.

Fernando A. Moraga Llop declares he has no conflict of interest.

Vaccines against *Neisseria meningitidis*

José Antonio Navarro-Alonso

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):20–8

Conflict of interest: the author declares he has no conflict of interest.

Vaccines against varicella-zoster virus

Luis Salleras, Montserrat Salleras, Andrés Prat, Patricio Garrido and Ángela Domínguez

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):29–47

Conflict of interest: the authors declare they have no conflict of interest.

Conjugate pneumococcal vaccines: present and future

Jesús Ruiz-Contreras

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):48–55

Conflict of interest: the author has participated as the pediatric coordinator in a multicenter study financed by Wyeth on the incidence of invasive pneumococcal disease in children hospitalized in the autonomous region of Madrid.

Combined vaccines

Fernando A. Moraga Llop and Josep Marès Bermúdez

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):56–64

Conflict of interest: the authors declare they have no conflict of interest.

Vaccines against the human papilloma virus

Xavier Castellsague Piqué and F. Xavier Bosch José

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):65–77

Conflict of interest: Xavier Castellsague Piqué has participated as an investigator in clinical trials and epidemiological studies financed by industry, as a speaker at symposiums and courses organized by industry, and has acted as an advisor/consultant (advisory boards, scientific committees) in research projects sponsored by industry.

F. Xavier Bosch José has been a member of advisory committees for GSK, SPMSD and MSD. The institution has received

research grants from GSK, SPMSD and MSD, which produce specific vaccines against HPV.

financed by GSK, and has collaborated as an invited speaker at symposiums organized by GSK.

Current status of vaccines against pandemic influenza

José María Bayas Rodríguez and Magda Campins Martí
Enferm Infecc Microbiol Clin. 2008;26(Supl 1):78–85

Conflict of interest: José María Bayas Rodríguez has participated as a researcher in phase III and IV clinical trials of vaccines sponsored by GSK and Sanofi Pasteur MSD.

Magda Campins Martí has participated as the main investigator in a clinical trial of the pre-pandemic H5N1 vaccine,

Malaria vaccine: the main challenge for developing countries

Montserrat Renom Llonch, Sarah Lafuente van der Sluis and Pedro Luis Alonso Fernández

Enferm Infecc Microbiol Clin. 2008;26(Supl 1):86–95

Conflict of interest: the authors declare they have no conflict of interest.
